"Jerry Liguori’s book takes the hawk identification guide to a whole new level. This book is a gold mine of information for anyone interested in hawk identification.”
—David Sibley, author of The Sibley Guide to Birds

“This twenty-first-century offering does for raptors what the seminal Ducks at a Distance did for waterfowl in the mid-twentieth century. It makes a quantum leap in the complex art and science of hawk identification, taming these shape-shifters like never before.”
—Clay Sutton, coauthor of Hawks in Flight

Hawks at a Distance
Identification of Migrant Raptors
Jerry Liguori
With a foreword by Pete Dunne

Paper  $19.95  978-0-691-13559-5
Cloth  $49.50  978-0-691-13558-8

Avian Architecture
describes how birds design, engineer, and build their nests, deconstructing all types of nests found around the world using architectural blueprints and detailed descriptions of the construction processes and engineering techniques birds use. This spectacularly illustrated book features 300 full-color images and more than 35 case studies that profile key species worldwide.

Avian Architecture
How Birds Design, Engineer, and Build
